Artificial Intelligence Is in Early Adoption

Percentage of Respondents

Q: What are your organization's plans in terms of artificial intelligence?

Base: All Answering, n = 3.138

 Presented at Gartner Data & Analytics Summit 2018, March 2018

Artificial Intelligence

The capability of a machine to imitate intelligent human behavior

Artificial Intelligence

*The capability of a machine to **match or exceed** intelligent human behavior*

Artificial Intelligence Today

*The capability of a machine to **match or exceed** intelligent human behavior
by training a machine to learn the desired behavior*

Do you need AI?

AI for Predictive Maintenance

- Measure the wear of each robot
- Predict and fix failures before they happen
- AI handles uncertainty and variability

Are you ready for AI if ...

You've never used machine learning?

Are you ready for AI if you've never used machine learning?

- No experience required
- Use apps to try out all possible models
- Use domain expertise and familiar tools to prepare data

SPEED
LIMIT
45

Traditional Approach

- Geologists assess seven different metrics
- Can take hours to analyze one site
- Critical shortage of geologists

New Approach

- Use deep learning to automatically recognize metrics based on images
- On-site evaluators decide with support from deep learning

Akira Ito and Ryu Matsumoto

“The effort **would have taken significantly longer** if we had used disparate tools.

[MATLAB] enabled our team of domain experts, who lacked formal training in data science, machine learning, and parallel computing, to incorporate all these areas in our design process.”

EMG (Muscle) Control

A close-up photograph of a custom-built robotic drumstick controller. Two wooden drumsticks are mounted on a metal frame. The frame includes a green printed circuit board (PCB) with various electronic components, a black gear, and a silver pneumatic cylinder. The entire assembly is positioned over a large, circular brass cymbal. Two black text boxes are overlaid on the image: one labeled 'Autonomous' pointing to the top stick and another labeled 'Primary' pointing to the bottom stick. The background is dark and out of focus, showing some cables and parts of a drum set.
