

# System Requirements - 2007b

## Solaris

Operating System	Processors	Disk Space	RAM
<b>64-bit MathWorks Products</b>			
Solaris 10*	SPARC	510 MB (MATLAB only)	512 MB
	ultraSPARC		(1024 MB recommended)

\* Running MATLAB R2007a on Solaris 8, 9, or 10 requires that the OS have the current recommended patches. Please contact Sun directly for information about which patches to install.

## Graphics

- 24-bit graphics display for Sun Solaris

## Compilers (for MEX Files)

- View an up-to-date list of *supported compiler* versions from third-party vendors.

## License Management

- Some license types require a license server running FLEXnet 11.4, which is provided by the MathWorks installer.
- TCP/IP is required on all platforms when using a license server.

## Support for Products on Operating Systems No Longer Supported

If you are enrolled in *Software Maintenance Service*, MathWorks will respond to technical questions and provide workarounds when possible for a period of two years from the date when MathWorks ended support for an operating system. See the [platform road map](#) for more information.
